

Lean & Clean

India's First Anti-Bacterial Flat Switch  
Anti-Bacterial technology: 99% Bacteria control  
Switches, Sockets & Front Plates

## Blenze plus - Antibac

Blenze plus introduces a range of wiring accessories (switches, sockets & front plates), which offer protection against microbial contamination/infection, using new generation anti-bacterial technology. Hygiene and infection control is now becoming increasingly important in environments like hospitals, and homes. Anti-microbial coating impregnated with silver ions inhibits microbial growth to improve hygiene. The active ingredients, silver ions, used in Blenze plus products are incorporated during the manufacturing process and are therefore active for the entire life of the product.

## Blenze plus - Antibac

Recommended Retail Price List No. BLZ 15 Effective 01<sup>st</sup> February, 2017.

## Blenze plus

Artfully embellished with a silky satin matte finish, the Blenze plus smart-looking flat modular switch range comes in two colour shades. With the switch housed in slim 6.5mm front plate, the entire unit appears flushed on the wall and blends in with interior décor. To add to its benefits, this range is easy to install, absolutely safe to use, and future proofed forever with a wide range of electronic products. Blenze plus is India's first fully RoHS compliant range.
